Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species 1: Figure 3, a receiver tube having a plurality of lugs and a locking rib disposed about the opening of the receiver, wherein the locking rib is configured to allow the receiver tube to be connected to the receiver.

Species 2: Figure 4, a receiver tube including a plurality of flanges, wherein the flanges are flexible and configured to hold the receiver tube in place when disposed within the opening in the receiver.

Species 3: Figure 5, a funnel disposed about the opening of a receiver and configured to guide a receiver tube into the opening.

Species 4: Figure 6, a receiver tube including a radial flange and a collar, wherein the collar has mating threads with respect to the threaded portion of a receiver and the collar is configured to hold the flange of the receiver tube about the opening of the receiver.

Species 5: Figure 7, a receiver tube and the opening of a receiver are configured to be press fit together.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An

argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Claims 21-23, 25, 26, 37-42, 43 and 46 are deemed to correspond to the species 1.

Claims 21-23, 25, 26, 37-42 and 45 are deemed to correspond to the species 2.

Claims 21-23, 25, 26, 37-42 and 44 are deemed to correspond to the species 3.

Claims 21-23, 25, 26, 37-42, 47 and 49 are deemed to correspond to the species 4.

Claims 21-23, 25, 26, 37-42 and 48 are deemed to correspond to the species 5.

The following claim(s) are generic: 21-23, 25, 26 and 37-42.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the inventions are related to different special technical features and constructed in different embodiments.

2. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HUYEN D. LE whose telephone number is (571) 272-7502. The examiner can normally be reached on 9:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, CURTIS KUNTZ can be reached on (571) 272-7499. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
